Complete List of News Items

###	Publication Date	Abstract
Article: CERT Seeks Secure Coding Input	25.07.06	Kelly Jackson Higgins, Dark Reading, July 25, 2006.
Article: Microsoft bets big on Vista security	24.07.06	Robert McMillan, ComputerWorld, July 24, 2006.
Article: Customization is weakest link in app security	20.07.06	Michael Crawford, ComputerWorld, July 20, 2006.
Article: Hack-proof design	20.07.06	Warren Webb, EDN document.write(get_publication('EDN'));, 7/20/2006.
Article: Trust in global computing	12.07.06	IST Results, July 12, 2006.
Article: Secure Coding Catches Fire	07.07.06	Kelly Jackson Higgins, Dark Reading, July 7, 2006.
Article: Software tools detect bugs by inferring programmer's intentions	06.07.06	James Kloeppel, University of Illinois and Urbana-Champaign, July 6, 2006.
Article: New method better predicts software vulnerabilities	28.06.06	Colorado State University News, June 28, 2006.
Article: Oracle's security chief lambastes faulty coding	25.05.06	Jeremy Kirk, ComputerWorld Security, May 25, 2006.
Document: Secure Coding Guide [in Mac OS X]	23.05.06	Apple Computer, Inc., May 23, 2006.
Article: JavaOne 06 DayTwo	17.05.06	John K. Waters, Application Development Trends, May 17, 2006.
Article: Teaching Reliability	15.05.06	John Regehr, *IEEE Distributed Systems Online*, vol. 7, no. 5, 2006, art. no. 0605-o5002.
Article: AJAX Experts Tackle Security, Other Issues	11.05.06	Darryl K. Taft, eWeek, May 11, 2006.
Article: Cybersecurity research plan identifies threats	01.05.06	Aliya Sternstein, Federal Computer World, May 1, 2006.
Article: Bugs put widely used	26.04.06	

DNS software at risk		Robert McMillan, ComputerWorld, April 26, 2006.
Article: Council Releases Blueprint for Federal Cybersecurity Research	25.04.06	Daniel Pulliam, GovExec.com, April 25, 2006.
Article: Software Insecurity: Plenty of Blame to Go Around	18.04.06	William Jackson, Government Computer News, April 18, 2006.
Article: Cover story: Defining trust	11.04.06	Dan Kaplan, SC Magazine, April 11, 2006.
Article: Researcher: Security risks in Web services largely ignored	07.04.06	Robert McMillan, Computerworld, April 7, 2006.
Article: Software Out There	05.04.06	John Markoff, New York Times, April 5, 2006.
Article: Open Source Code Fix Project Scores Early Success	04.04.06	Computer Business Review, April 4, 2006.
Article: Software Insecurity	28.03.06	Daniel G. Dupont, Scientific American (Vol. 294, No. 3, P. 26), March, 2006.
Article: Building Better Applications: Beyond Secure Coding	28.03.06	Mathew Schwartz, Enterprise Systems, March 28, 2006.
Article: Council to draw up cyberattack response	27.03.06	Alice Lipowicz, Washington Technology, March 27, 2006.
Article: Stevens Professor to Chair International Workshop on PCC	20.03.06	Stevens Institute of Technology, March 20, 2006.
Article: Security pros push for secure code	20.03.06	Michelle Hope, Network World (Vol. 23, No. 11, P. 46), March 20, 2006.
Article: Internet Panel Mulls Defenses Against New, Potent Attacks	16.03.06	Ted Bridis, Associated Press, March 16, 2006.
Article: Association for Computing Machinery Honors Pioneers of Verification Tools for Safe, Secure Software	16.03.06	AScribe Newswire, March 16, 2006.
Article: Association for Computing Machinery Honors Creators of Verification Tools for Software, Hardware	16.03.06	AScribe Newswire, March 16, 2006.

Article: Model-Driven Development, AJAX Shortcomings Aired	15.03.06	Paul Krill, InfoWorld, March 15, 2006.
Article: At the Five-Year Mark, Agile Manifesto Still Stands	15.03.06	Jennifer DeJong, SD Times (No. 146), March 15, 2006
Article: Agile programming has fallen short, conference told	13.03.06	Paul Krill, InfoWorld, March 13, 2006.
Print: Forging a National Cyber Security Strategy	01.03.06	Andy Purdy Jr., SC Magazine, P. 48, March 1, 2006.
Book: Software Security: Building Security In	01.02.06	Gary McGraw, Addison-Wesley, February 2006, ISBN: 0-321-35670-5.
Article: Software Security and SOA: Danger, Will Robinson!	01.02.06	Gary McGraw, IEEE Security & Privacy, January/February 2006.
Article: Seven Pernicious Kingdoms: A Taxonomy of Software Security Errors	01.12.05	Gary McGraw, IEEE Security & Privacy, November/December 2005.
Press Release: BuildSecurityIn Launched	03.10.05	This is the press release that was published by the Software Engineering Institute, October 3, 2005, announcing Build Security In.
Book: Secure Coding in C and C++ (SEI Series in Software Engineering)	09.09.05	Robert C. Seacord, Addison-Wesley Professional, September 9, 2005, ISBN: 0-321-33572-4.
